To Whom it May Concern:

I have worked with David Brooks Enterprises for more than six years beginning when they built our first building at 2080 West Indiantown Road in Jupiter, FL. In addition to being very professional and easy to work with, they finished the project not only on time, but under budget!

We have continued to work with them on other projects, including the construction of another commercial building, during the last 6 years and have found that their craftsmanship, attention to detail, work ethic and professionalism has never faltered. I would continue to work with David Brook Enterprises on future construction projects and would highly recommend them.

If you would like additional information, feel free to call me at 561-746-4336, as I would be happy to tell you about my positive experiences working with David Brooks Enterprises.

Sincerely,

Patrick Dillon  
Bonded Lightning Protection  
Vice President
